District	Name										

How strongly do you agree: "The school district should seek to add more charter schools to its portfolio of schools."

How strongly do you agree: "Elected officials should strive to discern and follow the popular will, even if they and the technical / professional experts on staff don't personally agree with popular sentiment."

Multiple Choice

Which of these statements about pre-Kindergarten (ages 0-5) do you most agree with?

A - School districts should prioritize local public resources to ensure every child has access to a high quality pre-K program.

B - School districts should focus mostly on K-12, leaving additional pre-K public funding or legislation to the state and federal gov'ts.

C - Public resources should focus on K-12. Pre-K should be viewed as optional and left primarily to the non-public sectors.
